FOS HALO LED

L005261

Retro / Vintage style LED fixture, with 19 total sections with independent control. Consisted of 336 RGB, 87 WW & 45 White & Amber LEDs.

TECHNICAL DETAILS

Description / Light Source

Retro / Vintage style fixture, based on 468x 0,8 Watt LEDs in total.
The Hallo has LEDs in three sections: In the outer ring, the center of the reflector and on the back side of the mesh grid.
The LEDs in the sections, are divided also in different segments:

- 8 RGB segments in the outer ring
- 8 RGB segments in the center section
- 2 WW & A segments in the center section
- 1 segment on the back side of the mesh grid.

50,000 life hours approximately.

Effects

RGB, Warm White & Amber color mixing, independently in to different areas of the fixture, creating amazing optical effects and color shades.
Dedicated DMX channel with auto, flow effects for fast programming.
Separate shutter channels for each fixture section, for variable strobe effects.
Impressive Warm White & Amber lighting output, creating a warming atmosphere with a vintage look, suitable for various applications, like in theaters, exhibitions, stages / concerts.

Control

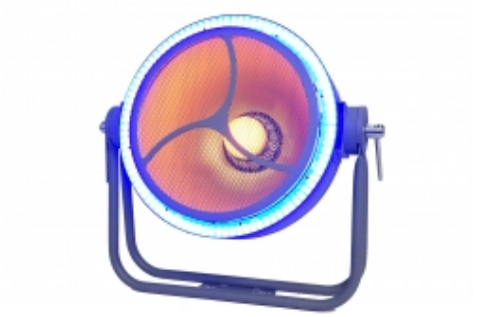

Auto (Test Mode) & DMX control modes
2, 7, 16, 51, 55 & 64 DMX control channels
